# Sports Day

Sports Day is always an event that students look forward to and this year was no different. We had a great turn out and students and parents alike enjoyed the day thoroughly. The winners of Sports Day in the Primary School were the Red Storm, followed by the Green Dragons and the Sky Blue Dolphins in 2nd and 3rd place respectively.

There were a variety of action packed, team orientated games for the students to partake in. Take for instance the tug of war, which required a concerted team effort.

A lot of valuable lessons were reinforced out on the football field which are directly in line with our REACHES approach, especially promoting Health and Wellbeing and Respect. Another key factor that was encouraged was working together as a team. Good sporting behaviour and fair play were also displayed throughout the games.

## Sports News

The U-19 girls' football team had their second match of the season versus MISY last week. Coach Maureen did a great job in her MIS debut. The girls got off to a slow start trailing 3-0 at halftime. But after coming together and stepping it up, the Griffins scored two goals through Zoe and Melanie to trail 3-2. They had several more shots on goal before the game expired but ended up losing a close one. We are very proud of the girls' team and how far they have come. This is the first time ever MIS has had a girls' football team. We look forward to the MISAC Girls' tournament coming up December 3rd.

# Air Warden

This month Y4 students at MIS will be taken back to 1941! There is a new neighborhood Air Warden in town and she will be visiting each Y4 classroom to discuss the importance of staying safe during wartime. Carrying around an umbrella will not protect you from a nighttime air raid!

The Air Warden has the principal duty of quieting the fears of the people. Students will listen to the sound of an actual air siren from World War Two and learn how to duck and cover beneath the safety of their own desks. The responsibility of the air warden is to protect and safeguard lives and homes from new hazards created from attack from the air!

The Air Warden's first visit was to class 4A. The actual practice lasted only one and one half minutes, but felt like an hour! The students were incredibly responsive and worked beautifully with the Air Warden to remain calm during this simulated crisis.
